

## ENVIRONMENTAL POLICY

Management and staff of **GLOBE WILLIAMS INTERNATIONAL** recognising the importance of improving environmental protection have developed an Environmental Management System (EMS) in line with the requirements of the international ISO 14001:2015 standard. The objective of **Globe Williams International** is to ensure that when implementing the projects it undertakes (Facility, Environmental, Security) this is combined with environmentally beneficial actions.

**Globe Williams International is committed** to constantly improving its Environmental Management System and its environmental performance, to protecting the environment, preventing pollution and complying with the applicable legal and other requirements it has accepted in writing and which are related to its environmental aspects. It is also committed to the sustainable use of resources, limiting the impact on climate change, and protecting biodiversity and ecosystems.

**Globe Williams International** seeks to:

- ❖ act to save energy, reduce water consumption, properly manage waste water generated and reduce and properly manage solid waste generated;
- ❖ maintain good air quality;
- ❖ maintain low noise emission levels;
- ❖ protect the subsoil from the infiltration of liquid waste;
- ❖ collaborate with the competent bodies to preserve the natural beauty of the areas in which it operates;
- ❖ communicate to all stakeholders, clients and suppliers environmental actions taken by the company to raise awareness and enable them to participate;
- ❖ train company staff and raise awareness among them so that they actively participate in the Environmental Management System.

These policy objectives of **GLOBE WILLIAMS INTERNATIONAL** are achieved via the Environmental Management System by developing specific, measurable environmental targets, regularly checking environmental parameters, checking the performance of interventions, evaluating compliance with legislative and other requirements, inspecting the performance of the Environmental Management System implemented and reviewing targets so as to improve them.

**GLOBE WILLIAMS INTERNATIONAL** 's environmental policy is fully binding on all employees at all levels of the company. The same applies to each client, external associate or supplier and in general to any interested party.
